SUMMARY

An ambitious second-year student enrolled in integrated preparatory studies, specializing in computer science with a focus on software engineering. Proficient in multiple programming languages including Python and Java, with a keen interest and proficiency in web development utilizing HTML, CSS, JavaScript, and PHP. Demonstrates exceptional teamwork and communication skills, coupled with a strong ability to collaborate effectively in group settings. Eager to apply technical expertise and passion for innovation in a challenging summer internship role, contributing to real-world projects and gaining valuable hands-on experience in the field of computer science
